Insert Geometries

GM chipbreaker - Universal
PR1230 for carbon steel
PR1210 for cast iron

- Wide chipbreaker covers variety of materials.
- Good balance of cutting edge strength and sharp cutting.

SM chipbreaker - Sharper edge
PR1225 for stainless steel and low carbon steel

- W-shaped cutting edge. Good chipcontrol at sticky material.
- Sharp cutting by large rake angle.

GH chipbreaker - Tough edge
PR1230 for hardened material, with interruption

- Wider chipbreaker control breakage by pressed chips.
- Stable cutting edge.

Insert Grades

Steel	PR1230
Stainless Steel	PR1225
Cast iron	PR1210
Non Ferrous	GW15
Heat resistant alloys	PR1225
Titanium	GW15

Ordering Example:

DRX 40mm drill body and 20 inserts for Steel.
Drill body S40-DRX400M-2-14 & 20 off ZXMT140408 GM PR1230.
Price of drill body is £190 and 20 off inserts are at your STD Terms.
